

CAO School Leavers

CAO school-leaving applicants are required to pass the portfolio review, but are not required to attend for interview. Applications must be made through the Central Applications Office (CAO) - www.CAO.ie. The closing date for CAO applications is 1st February each year.

CAO school leaving applicants who pass the portfolio review, and who subsequently satisfy the minimum requirements, are ranked in order of merit, based on the points system. At present, no extra points can be awarded for passing the portfolio and statement review.

Mature Applicants

Applications are particularly welcome from mature candidates (at least 23 years of age on 1st January of the year of enrolment). Each mature application is considered on an individual basis. Academic qualifications, work and life experience, motivation and overall potential for the programme of study are evaluated and for LM099 Architecture, applicants must also successfully pass the portfolio review. All mature candidates must also apply through the Central Applications Office (CAO) - www.CAO.ie. The closing date for CAO applications is 1st February each year.

CAO mature candidates who successfully complete the portfolio review will subsequently be invited for an interview, prospectively held in late April. Applicants are expected to be available for interview at the specified time. Offers of places will be issued by the CAO in early July.
